Questions for BLM/BIA

The ortho map that BLM provided dates to 1993 and while a lot of the operation we think is now CRM is East of the Calvin survey line, we really do not know. It would help if we had legal descriptions of CRM's property mapped, both before and after move, and if BIA/BLM could map these for us.

Can we get scale of ortho map?

Questions for CRM

-need legal description of their property as it exists today, after move of asphalt plant

- need legal description of their property as it existed before move of asphalt plant

get P71 applicability questions from EW - any relation between CRM and Columbia Asphalt?
the physical operations? the accounting records etc? need EW help here

does facility apply to any agency of Yakama tribal gov't for any permits in any way related to operating their facility? including but not limited to, water supply or disposal, waste disposal?
if so, what?
